Remarks

The specification has been amended, at page 1, lines 5-11, in order to provide application serial numbers and filing dates, and to eliminate attorney docket numbers, for two commonly assigned, concurrently filed applications. The amendment on page 19, line 1, corrects an inadvertent duplicate usage of reference numeral 230, and shows "'Customize sensor?' option 231". The amendment on page 34, lines 5-14, corrects inadvertent use of 6? and 10? instead of 6′ and 10′, respectively, as is correctly shown in Figure 16.

Replacement formal drawings are provided for Figures 1, 2A, 2B, 3, 4A, 4B, 5A-5G, 6A, 6B, 7A-7C, 8A, 8B, 9A, 9B, 10-16 and 17A-17C.

Respectfully submitted,
